Gender Equality, Diversity and Inclusion (GEDI) - Suggested Action Items

The following is a list of suggested key takeaways from the GEDI Working Group preliminarily assigned to the goals of the Strategic Plan. This is the result of 13 GEDI Working Group meetings, between April and September 2021, on different topics of GEDI. The below suggested action items were proposed and approved by the Executive Committee and Council. The approved actions are assigned to the appropriate group - GEDI Management group, and Commissions via GEDI Cross Commission member for implementation.

(See above item on 'Member Federation Education Pack' for more detail) Action Item #28

Encourage Member Federations to look at their current baseline in terms of gender equality, adopt own targets for increasing female participation and implement measures to address imbalance across the different levels of the sport (coaching, governance, leadership etc).

Provide information on the WR website, include some definitions, including transgender and DSD

Encourage MFs to support, grow and develop para sport within their countries and integrate within their National Team environments.

Sport Leaders' Education on gender diversity (coaches, managers and leaders need to know more about gender diversity so that they can be more inclusive moving forward)

Share ideas for mixed events based on different criteria, other than gender (e.g.: in recreational rowing segregate categories based on erg times regardless if participants are male or female)

Develop training module addressing unconscious bias in sport and highlighting cultural barriers.

Make uniforms less gendered, or at least allow options where people can choose non typical uniforms that allows them to express their non-gender uniformity.

Emphasise the importance of Language: using correct names and pronouns, screening language of team mates, opponents and spectators to eliminate homophobic or transphobic language

At a non-elite level, need to identify best practices and showcase how rowing can be inclusive of trans people.
