OBJECT: Application for European Rowing Board Position – Letter of Motivation

Dear Member Federations,

I am writing to express my interest in the position on the European Rowing Board.

This application is driven by strong convictions that I have developed and strengthened over the past few years. First of all, I am a young professional convinced that, in a constantly evolving society, meaningful engagement and responsibility are more crucial than ever. Throughout my rowing career, I have greatly benefited from the dedication of volunteers, coaches, and professionals across both small and large clubs. These experiences have profoundly shaped my commitment to rowing.

Secondly, I served on the Executive Committee of the French Rowing Federation for four years, an experience that gave me a solid understanding of federation governance and of the needs of clubs at both local and national levels. I believe that, regardless of the federation we come from, we face similar challenges, and I am convinced that, collectively, we can move things forward more effectively.

Finally, I bring a background combining experience in innovation funding and project development, particularly in the preparation and management of funding applications and strategic dossiers. While I am still at an early stage in my career, I would be pleased to bring these skills and experience to support the work of the Board.

I am motivated by a strong desire to give back to rowing what it has given me, by contributing constructively to its development at a European level.

I would be honored to serve and to support the continued growth of European Rowing.

Myriam Goudet
